

WRAP TITE® GREEN INITIATIVES

OUR EFFORTS TO CONSERVE ENERGY, REDUCE WASTE AND LESSEN NEGATIVE ENVIRONMENTAL IMPACT

USE OF POST-CONSUMER RESIN

We are able to use PCR resin pellets in our manufacturing, giving new life to plastic that would have otherwise become waste.

Bio

BIO-DEGRADABLE FILMS

Our Bio films are formulated with a special additive that shortens their decomposition time.

(Products: CHF, CMF, SPM, PMF, EW, EWHF)

CARBON-FREE ELECTRICITY

As of January 1, 2022, all of the electricity we use will be 100% carbon-free.

NO CO WRAP

CORELESS STRETCH WRAP

With no core to throw away, our NoCo Wrap reduces waste and is 100% recyclable.

(Products: GW, GWHF, GWPW, GWNW)

RECYCLING OF SCRAP

When ever possible, we recycle and reuse our industrial scrap and corrugated cores.

DOWN-GAUGE/ PRE-STRETCH FILMS

With our Down-Gauge films, you can get the job done while using less product.

(Products: PHF, PMF, SPM, HPMF, Pre-Stretch)
