**Friends,**

As a result of the ongoing global escalation of the COVID-19 pandemic, all of our suppliers for gloves and safety product continue to rapidly increase prices with no relief in sight. Supply shortages coupled with world demand is at an all-time high, so increased prices are inevitable. Suppliers are providing increasing prices continuously as well as giving lead times of upto 12-18 months.

Many factories are forced to continue restricting their workforce by 50% to minimize the spread of COVID-19 as governments have once again extended their Movement Control/ Stay Home/ Restricted Movement orders well into June. Export restrictions, government intervention and increased shipping costs are also playing a large role in driving up costs. Finally, the cost of necessary shipping/packing material and raw materials used in disposable glove production and safety products have seen as much as a 500-1000% increases.

**Wrap Tite is now requesting that our valued Distributors begin to Call or Email for Pricing & Availability on all our Gloves and Safety products.**

We are constantly monitoring the supply-chain and will continue to update you. However we do not see much respite in the current supply and pricing situation on gloves and safety products for the remainder of the year.

**We appreciate your understanding and look forward to supplying your moving, shipping and safety supplies-as well as we can.**

**Sincerely,**

**WT Management**
