

# Protect Your School This Fall with Our “Big 4” School Readiness Products!

## 1. Thermal Imaging Systems

In your quest to find a safe and cost effective solution to screen your school entry points, we offer thermal imaging systems which are capable to **Auto-capture temperatures at large volume entry points**. Also, you don't require to appoint any personnel to manually check temperatures, thus making temperature screening safer and cheaper.

## 2. Portable Hand-held Thermometers

A great device that lets you screen people for temperatures at low traffic entry-points in your premises without the need for physical touch.

## 3. Masks, Masks, masks

By considering your specific needs for face masks, **we offer the regular 3 ply earloop masks in KIDS SIZE as well**. Check out our complete range of face masks with KN95, reusable and medical face masks readily available.

## 4. Budget Friendly Disposable Gloves!

With increasing prices on Vinyl and Nitrile gloves and school budgets tightened up, our HDPE and TPE gloves provide an excellent **economical substitute** to your disposable gloves requirements. Perfectly suited for activities such as food service, housekeeping and general use.
